Call for Papers

ICEIS 2005 will be organized by INSTICC, in collaboration with Florida International University - Miami (USA).

SCOPE

The purpose of the 7th International Conference on Enterprise Information Systems (ICEIS) is to bring together researchers, engineers and practitioners interested in the advances and business applications of information systems. Five simultaneous tracks will be held, covering different aspects of Enterprise Information Systems Applications, including Enterprise Database Technology, Systems Integration, Artificial Intelligence, Decision Support Systems, Information Systems Analysis and Specification, Internet Computing, Electronic Commerce and Human Factors.

ICEIS focuses on real world applications; therefore authors should highlight the benefits of Information Technology for industry and services. Ideas on how to solve business problems, using IT, will arise from the conference. Papers describing advanced prototypes, systems, tools and techniques and general survey papers indicating future directions are also encouraged. Papers describing original work are invited in any of the areas listed below. Accepted papers, presented at the conference by one of the authors, will be published in the Proceedings of ICEIS. Acceptance will be based on quality, relevance and originality. Both full research reports and work-in-progress reports are welcome. There will be both oral and poster sessions.

Special sessions, dedicated to case-studies and commercial presentations, as well as tutorials dedicated to technical/scientific topics are also envisaged: companies interested in presenting their products/methodologies or researchers interested in holding a tutorial are invited to contact the conference secretariat. Information concerning the previous ICEIS editions (ICEIS'99, ICEIS 2000, ICEIS 2001, ICEIS 2002, ICEIS 2003, ICEIS 2004) can be found at http://www.iceis.org.

TOPIC AREAS / CONFERENCE TRACKS

Each of these topic areas is expanded below but the sub-topics list is not exhaustive. Papers may address one or more of the listed sub-topics, although authors should not feel limited by them. Unlisted but related sub-topics are also acceptable, provided they fit in one of the following main topic areas:
1. Databases and Information Systems Integration
2. Artificial Intelligence and Decision Support Systems
3. Information Systems Analysis and Specification
4. Software Agents and Internet Computing
5. Human-Computer Interaction

AREA 1: Databases and Information Systems Integration

- Coupling and Integrating Heterogeneous Data Sources
- Enterprise Resource Planning
- Middleware Integration
- Legacy Systems
- Organisational Issues on Systems Integration
- Distributed Database Applications
- Object-Oriented Database Systems
- Enterprise-Wide Client-Server Architecture
- Database Security and Transaction Support
- Data Warehouses
- Multimedia Database Applications
- Web Databases
- Mobile Databases
- Software Engineering
- Software Measurement

AREA 2: Artificial Intelligence and Decision Support Systems

- Intelligent Agents
- Industrial Applications of Artificial Intelligence
- Strategic Decision Support Systems
- Group Decision Support Systems
- Applications of Expert Systems
- Advanced Applications of Fuzzy Logic
- Advanced Applications of Neural Network
- Natural Language Interfaces to Intelligent Systems
- Bayesian Networks
- Evolutionary Programming
- Coordination in Multi-Agent Systems
- Intelligent Social Agents and Distributed Artificial Intelligence Applications
- Intelligent Tutoring Systems
- Datamining
- Case-Based Reasoning Systems
- Knowledge-based Systems Engineering
- Knowledge Management

AREA 3: Information Systems Analysis and Specification

- Systems Engineering Methodologies
- Information Engineering Methodologies
- Organisational Semiotics
- Semiotics in Computing
• Requirements Analysis
• Ontology Engineering
• Modelling Formalisms, Languages, and Notations (e.g. UML, ER variants)
• CASE Tools for System Development
• Modelling of Distributed Systems
• Modelling Concepts and Information Integration Tools
• Business Processes Re-engineering
• Security, Freedom and Privacy

AREA 4: Software Agents and Internet Computing

• B2B and B2C Applications
• Process Design and Organisational Issues in e-Commerce
• E-Procurement and Web-based supply chain management
• Market-spaces: market portals, hubs, auctions
• E-Learning and e-Teaching
• Intranet and Extranet Business Applications
• Agents for Internet Computing
• Web Information Agents
• Case studies on Electronic Commerce
• Public sector applications of e-Commerce
• Interactive and Multimedia Web Applications
• Network Implementation Choices
• Object Orientation in Internet and Distributed Computing
• Internet and Collaborative Computing
• Semantic Web Technologies
• Wireless and Mobile Computing
• Agent-Oriented Programming

AREA 5: Human-Computer Interaction

• HCI on Enterprise Information Systems
• Functional and non-functional Requirements
• Internet HCI: Web Interfaces and Usability
• Design Methodology and Cognitive Factors in Design
• Multimedia Systems
• Machine perception: vision, speech, other
• Virtual Reality and Augmented Reality
• Intelligent User Interfaces
• User Needs
• Human Factors
• Accessibility to Disabled Users
• Geographical Information Systems
• E-Learning
• Computer Art
WORKSHOPS

- Wireless Information Systems
- Verification and Validation of Enterprise Information Systems
- Natural Language Understanding and Cognitive Science
- Ubiquitous Computing
- Security In Information Systems
- Computer Supported Activity Coordination
- Web Services: Modeling, Architecture and Infrastructure

KEYNOTE SPEAKERS

Will be available soon.

TUTORIALS

Will be available soon.

SUBMISSION OF PAPERS

Authors should submit a paper in English of about 8 A4 pages, up to 5,000 words, using the paper format indicated below. The program committee will review all papers and the contact author of each paper will be notified of the result, by email. Each paper should clearly indicate the nature of its technical/scientific contribution, and the problems, domains or environments to which it is applicable. Authors must also indicate the conference track to which the paper is submitted. The paper must be carefully checked for correct grammar and spelling.

Authors should use the ICEIS web-based submission facility available at the conference web site, to enter the contact information of all paper authors plus the file containing the paper. The facility will automatically send a submission acknowledgement, by email, to the author indicated as "contact author".

A "blind" paper evaluation method will be used. To facilitate that, the authors are kindly requested to produce and provide the full paper, WITHOUT any reference to the authors. The manuscript must contain, in its first page, the paper title, an abstract and a list of keywords but NO NAMES OR CONTACT DETAILS WHATSOEVER are to be included in any part of this file.

If the author is unable to use the web-based procedure then he/she can send the paper by email to the secretariat attaching a second file containing: the title, author(s), affiliation(s), contact details, a list of keywords and an abstract.

The camera-ready format should be strictly used for all submitted papers. Please check and carefully follow the instructions and templates provided.

Due to space limitations in the Proceedings, the camera-ready version will be limited to 8 (eight) pages for full papers, 6 (six) for short papers (progress reports) and 4 (four) for poster presentations.
If absolutely needed, it will be allowed to increase the total number of pages, by 4 extra pages. However, for each excess page the author will have to pay an additional fee.

**IMPORTANT DEADLINES**

Full Paper Submission: 29th October 2004  
Position Papers Submission: 15 November 2004  
Author Notification: 20th December 2004  
Workshops Submission: 29th December 2004  
Final Camera-Ready Submission and Registration: 31st January 2005

**SECRETARIAT**

ICEIS 2005 Secretariat  
EC 3100  
Department of Industrial & Systems Engineering  
Florida International University  
Miami, FL 33199  
E-mail for paper submission, proceedings and registrations: secretariat@iceis.org  
E-mail for local arrangements: will be available soon  
Web: [http://www.iceis.org/](http://www.iceis.org/)

**VENUE**

Will be available soon.

**CONFERENCE CO-CHAIRS**

Chin-Sheng Chen, Florida International University, USA  
Joaquim Filipe, Escola Superior de Tecnologia de Setúbal, Portugal ([jfilipe@iceis.org](mailto:jfilipe@iceis.org))

**PROGRAM CO-CHAIRS**

Isabel Seruca, Universidade Portucalense, Portugal ([iseruca@upt.pt](mailto:iseruca@upt.pt))  
José Cordeiro, Escola Superior de Tecnologia de Setúbal, Portugal ([jcordeiro@iceis.org](mailto:jcordeiro@iceis.org))

**GENERAL WORKSHOPS CHAIRS**
SENIOR PROGRAM COMMITTEE

Luís Amaral, University of Minho, Portugal
Peter B. Andersen, Univ. of Aarhus, Denmark
Ricardo Baeza-Yates, University of Chile, Chile
Jean Bézivin, University of Nantes, France
Enrique Bonson, University of Huelva, Spain
João Alvaro Carvalho, University of Minho, Portugal
Albert Cheng, Univ. of Houston and Rice Univ., USA
Helder Coelho, FC - University of Lisbon, Portugal
Miguel Delgado, University of Granada, Spain
Jan Dietz, Delft Univ. Technology, The Netherlands
Frank Dignum, Utrecht University, The Netherlands
António Figueiredo, University of Coimbra, Portugal
Göran Goldkuhl, Linköping University, Sweden
Thomas Greene, MIT, USA
Nuno Guimarães, University of Lisbon, Portugal
Alberto Laender, Federal Univ. of Minas Gerais, Brazil
Maurizio Lenzerini, Univ. La Sapienza of Rome, Italy
Michel Léonard, University of Geneve, Switzerland
Kecheng Liu, The University of Reading, UK
Peri Loucopoulos, University of Manchester, UK
Paul Luker, Bournemouth University, UK
Kalle Lyyninen, Case Western Reserve University, USA
Yannis Manolopoulos, Aristotle U. Thessaloniki, Greece
José Legatheaux Martins, New Univ. Lisbon, Portugal
Masao Matsumoto, University of Tsukuba, Japan
James Odell, James Odell Associates, USA
Luis Moniz Pereira, New Univ. Lisbon, Portugal
Alain Pirotte, Catholique Univ. of Louvain, Belgium
Matthias Rauterberg, Technical University Eindhoven, The Netherlands
Colette Rolland, University of PARIS-1, France
Bernadette Sharp, Staffordshire University, UK
Alexander Smirnov, St.Petersburg - SPIIRAS, Russia
Ronald Stamper, Univ. of Twente, The Netherlands
Miguel Toro, University of Seville, Spain
José Tribolet, INESC/IST, Portugal
François Vernadat, European Commission, Luxembourg
Merrill Warkentin, Mississippi State University, USA
Hans Weigand, Tilburg University, The Netherlands
Roel Wieringa, University of Twente, The Netherlands

(REGULAR PROGRAM COMMITTEE)

Will be available soon.
