

# INTERACT 2003

Ninth IFIP TC13 International Conference  
on Human-Computer Interaction

To be held September 1st – 5th, 2003 at the Swiss Federal Institute of Technology (ETH) in Zurich, Switzerland

Bringing the bits together

## Call for papers

*The ninth IFIP TC13 international conference on Human-Computer Interaction will be organized at the Swiss Federal Institute of Technology (ETH) in Zurich (Switzerland), from September 1st to 5th 2003.*

*The conference is held under the auspices of IFIP Technical Committee 13 on Human-Computer Interaction (HCI).*

*The Swiss Informaticians Society (SI) acts as national host organization.*

INTERACT 2003 follows in a long and highly successful tradition of truly international IFIP HCI conferences. The conference will act as a platform for HCI research and practice which seeks to embrace the new demands of the 21st century, while continuing to include state-of-the-art approaches to traditional HCI issues, as in past INTERACT conferences.

People working in all aspects of HCI are encouraged to submit their work and participate in this conference. The program will be of international interest and include high quality papers, posters, industrial presentations and system demonstrations, as well as workshops, tutorials and much more.

All submissions will be anonymously reviewed by an internationally recognized HCI expert program committee.

The best paper will be awarded with the distinguished 'Brian Shackel Award'.

Students are encouraged to participate in various ways, including a doctoral consortium program for Ph.D. students.

INTERACT 2003 will be a conference for everyone involved in HCI, whether designing software or systems, managing the development or implementation of new systems and technology in organizations, researching, studying or teaching.

This conference will be attractive to both experienced members of the worldwide HCI community and to beginners who may want to find out about HCI and increase their knowledge and skills.

Come to INTERACT 2003 and savor Swiss life and culture while enjoying the best of intellectual discussion about HCI in research and practice at the ETH, one of the leading technical universities of the world.
